Elaborating Professor Peiris observed that the ties between the two countries have stood the test of time and are rich and multi-faceted.

Noting the well-established business relationship between the entrepreneurs of the two countries, Minister Peiris emphasized the need for further consolidation of these ties and broadening the scope of economic cooperation with greater engagement between the Chambers of Commerce. In this context, he proposed that business delegations from Sri Lanka should visit China to establish closer cooperation in cities additional to Beijing. He observed that this would be in keeping with seeking airline connectivity to those cities. The Chinese Foreign Minister pointing out that it is 55 years since bilateral diplomatic relations were established and the Rubber & Rice pact was signed 60 years ago with Sri Lanka, said that much progress had been achieved this year. He observed that China is ready to elevate this cooperation to greater heights, and welcomed the recent conclusion of a number of Agreements during the high level visits to Sri Lanka. The Foreign Minister of Mauritania stated that his country is interested in ascertaining the opportunities in the trade sector in the South Asian region and would undertake a visit to Sri Lanka in this regard.
